

BANK

How BASE24-eps became one of the world's most important payment technologies

And why, 15+ years later, it remains a valuable and efficient solution in the most demanding payment scenarios.

BASE24-eps integrates multiple payment channels into a single processing platform and is the backbone of ACI's acquiring, issuing, and ATM Acquiring solutions. It has evolved to accommodate new payment types and leverage cloud-native architectures. This ensures banks can rapidly and efficiently adapt to customer needs in real-time, improving profitability.

The backbone of ACI's market-leading acquiring, issuing, and ATM solutions, BASE24-eps delivers:

Enterprise-grade acquiring, authenticating, routing, switching, and authorizing of card- and non-card-based financial transactions through multiple channels.

Ultra-efficient **real-time payment processing**, and the ability to respond to new payment types and market demands.

A lower total cost of ownership, thanks to ACI's **multi-cloud deployment** options.

Where banks win with BASE24-eps

More profit

Gain lower transaction costs from inherent scalability, faster processing, efficient resourcing, and real-time data integration on any channel.

Improved CX

By integrating all necessary data in real-time through a single, secure channel, the risk of failure and fraud is minimized, and visibility is enhanced.

Accelerated time to market

Processing multichannel payments in the same operation speeds up new channels and related service launches.

Flexible configuration

Configurations can be customized according to business requirements and payment needs.

Two things you probably didn't know about BASE24-eps

Endpoint validation

The solution enables efficient endpoint validation across different channels — online banking systems, eCommerce, mobile, ATMs, and more.

Updating old systems

Powerful middleware streamlines updating legacy systems, such as ATM and POS solutions.

The ACI Worldwide advantage

Provides digital payment services to thousands of customers in

94 countries

A trusted partner to the

top 10 banks worldwide

Processing

billions of transactions

per day, equating to trillions of U.S. dollars

Let's talk

Get in touch to discuss how BASE24-eps can help you manage a constant flow of new transactions, channels, and technologies using a single payment processing engine.
